

Skillshare For Teams & LinkedIn Learning Integration

With Skillshare and LinkedIn Learning Hub, your team can discover over 8,000 inspiring Skillshare classes that provide them with up-to-date creative content to efficiently upskill and develop. Now you can give your team the best of both e-learning experiences and focus on what really matters—investing in your people through lifelong learning and development.

Why learn with Skillshare via LinkedIn Learning Hub?

Centralized Learning

Simplify your team's e-learning experience. Employees can browse all LinkedIn Learning and Skillshare content in one central location.

Robust Features

Achieve your learning and development goals with user-friendly features such as groups and class assignment capabilities—to name a few.

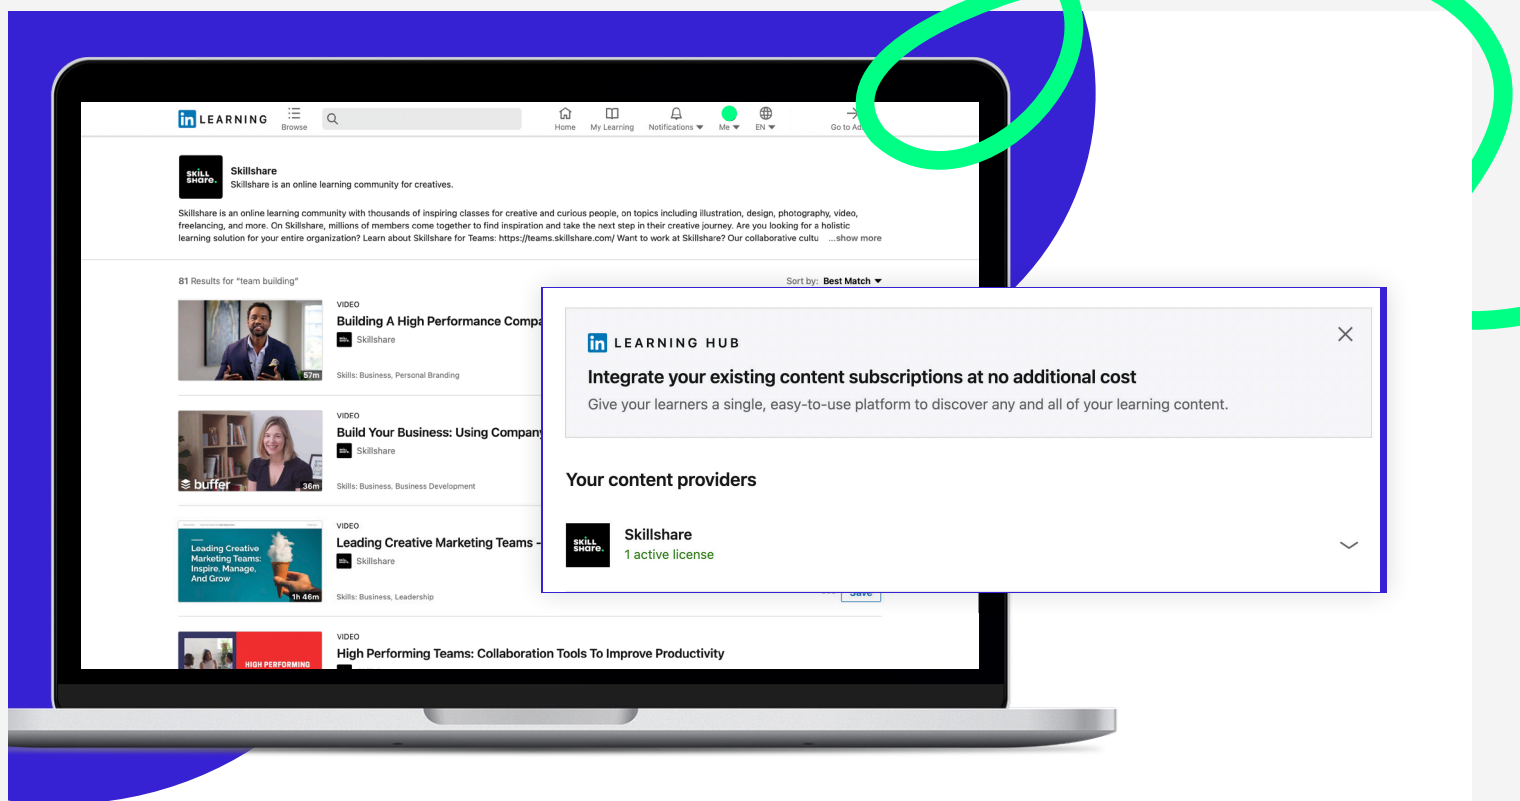

High-Quality Content For All

Bring together LinkedIn Learning's classes and Skillshare's unmatched catalog of creative content to help everyone to build their skillset.

Streamlined Reporting

Get comprehensive insights into your employees' engagement and usage so you can best support their development.

Getting Started with Skillshare on LinkedIn Learning

1

Determine Who Will Access Skillshare

You have the option to provide Skillshare access to your full team on LinkedIn Learning or a select group of members. If you're providing access to specific users, start by creating a group of those members within LinkedIn Learning.

2

Add Skillshare as a Content Partner

Navigate to your LinkedIn Learning admin page. Once there, click on your photo and select 'Integrate' from the dropdown. Then select 'Add content partners to LinkedIn Learning' from the left side of the page and select Skillshare.

3

Set Up Your Skillshare License

First, enter a license name. Your license name can be any name of your choosing. Then, choose whether you will be enabling access for all learners or for a select group. Select 'Save' and your team is ready to start using Skillshare content!
